**DATE:**           **September 2008**

**SUBJECT:**    **Information on SCVURPPP List of Qualified Consultants**

---

The Santa Clara Valley Urban Runoff Pollution Prevention Program (SCVURPPP) has updated the list of licensed engineers who are qualified to design or review proposed storm water treatment control Best Management Practices (BMPs) and hydromodification flow control facilities for new and redevelopment projects. This list was originally created in September 2006 as a resource for SCVURPPP's Co-permittee agencies.

SCVURPPP distributed a Request for Qualifications (RFQ) for professional Civil Engineers to design, review and/or certify storm water treatment best management practices and hydromodification control facilities. The RFQ was distributed to consultants currently on the SCVURPPP List, the BASMAA qualified consultant post-construction list, the Bid Hotline list provided by San Jose, San Jose's Public Works Developer Planners/Engineers' Roundtable list, an RFP clearinghouse provided by the City of Los Altos, and anyone that requested the RFQ. Consultants already on the SCVURPPP List were given the option of submitting a letter confirming that the previously submitted SOQ is accurate or submitting updated project/staff information.

SCVURPPP staff reviewed all Statements of Qualifications (SOQs) and contacted firms for further clarification of information needed to determine adequacy of qualifications provided. If each of the submittal requirements described in the "Statement of Qualifications" section of the RFQ had been met, a firm was deemed qualified and was included on the Qualified Consultants List (see page 2). The SCVURPPP staff further evaluated the SOQ submittals to determine if their example projects demonstrated experience with design of stormwater treatment best management practices, design of flow control basins to meet SCVURPPP's hydromodification management requirements, design of other flow control devices, and/or continuous simulation hydrologic modeling. The results of this evaluation are indicated on the second page of the List. The Qualified Consultants List is in no special order, and no endorsement by SCVURPPP is conferred to any particular firm that is on the List.

The List has been provided to SCVURPPP Co-permittee agencies, and electronic copies of the consultant SOQs are available on the SCVURPPP website. Co-permittees may choose to provide the List to development project applicants or they may contact consultants on the List directly to assist them with review of project applicant submittals or in design of public projects. Co-permittee agencies and project applicants will establish their own contractual agreements with those parties on the List to retain consulting services. SCVURPPP does not guarantee that inclusion on the List will result in any actual contract for such work or any financial benefit to a firm for being included on the List. This List does not preclude Co-permittee agencies from hiring firms that are not on this list. The List will be updated approximately every two years and at that time firms will have the opportunity to submit SOQs to be considered for the list or to update their current SOQ submittals.

**Santa Clara Valley Urban Runoff Pollution Prevention Program**  
**List of Qualified Consultants for Design, Review and/or Certify Stormwater Treatment Best Management Practices**  
**and Hydromodification Flow Control Facilities**

The List below contains information on Qualified Consultants who provided Statements of Qualifications (SOQs) containing: 1) proof of staff training on best management practice design for managing storm water quality and flow; 2) a statement of understanding of urban storm water management practices, issues, and requirements; 3) a statement of understanding of continuous simulation hydrologic models and analysis of output data; 4) three examples of experience in the design of storm water treatment and flow control measures within the past five years, including type of project, size, location, and a detailed description of BMPs used; and 5) a statement summarizing overall interest, availability, and commitment of the firm for inclusion on the SCVURPPP list. Table 1 contains contact information for the Qualified Consultants and Table 2 presents a summary of their experience, as presented in the SOQ. Complete SOQs are available on the SCVURPPP website: [www.scvurppp.org](http://www.scvurppp.org)

Table 1 – Contact Information

Company	Contact Name	Phone	Address	City	St	Zip	Fax	E-mail
RBF	Pal Hegedus	(916) 928-1113	2101 Arena Boulevard, Suite 250	Sacramento	CA	95834	(916) 928-1117	phegedus@rbf.com

Legend: N = No

Y = Yes

NR = Not Reported

PE = Licensed civil engineers registered in the State of California

NA = Not Applicable

NC = No change in previously submitted SOQ

SC = Submitted updated staff information for previously submitted SOQ

PC = Submitted updated project information for previously submitted SOQ

Comp. = Submitted a complete SOQ that will replace the previously submitted SOQ

Notes: <sup>1</sup>SOQ submittal listed applicable staff training but did not provide proof of training.

<sup>2</sup>Letter submitted was after the RFP deadline because the consultant did not receive the RFQ given a change in address.

<sup>3</sup>Experience demonstrated through the use of the Bay Area Hydrology Model (BAHM) only.

**Disclaimer:** SCVURPPP provides this list of qualified consultants for the use of its member agencies. Consultants are listed based on a review of their general qualifications and experience. Therefore, users of this SCVURPPP list must make the final determination as to the applicability of the information on the list to any general or specific use. Users of the list assume all liability directly or indirectly arising from use of this list. The listing of any consultant is not to be construed as an actual or implied endorsement, recommendation, or warranty of such consultant, nor is criticism implied of similar consultants that are not listed. This disclaimer is applicable whether the information is obtained in hard copy or downloaded from the Internet.
