

Understanding Potential Hurdles To Using Better Site Design
For Water Quality Protection
A First Step Towards Resolving Conflicts, Real or Imaginary
October 8, 2003

Number of returned forms: 16

Number Attended: 50

1. Welcome and Introduction

Very Useful: 2 Useful: 14 Not useful: 0

Comments:

- Video was very effective and useful

2. Street Width and Cul-de-sac Access and Safety Issues

Very Useful: 9 Useful: 7 Not Useful: 0

Comments:

- Good variety of ideas expressed
- I live on one

3. Permeable Pavements and Load Concerns

Very Useful: 7 Useful: 9 Not Useful: 0

Comments:

- None given

4. Source Controls for Trash and Recycling Areas

Very Useful: 2 Useful: 11 Not Useful: 2

Comments:

- Learned about 5' separation rule
- Would have been better if industry reps attended

5. Overall Evaluation of the Meeting

Very Useful: 5 Useful: 11 Not Useful: 0

Comments:

- Heard ideas I've never thought of

1. Which Topics were most beneficial?

- Public Safety requirements (2)
- Fire Access
- Accessibility & Pedestrian safety (2)
- Access Issues
- Street width (4)
- Emergency Vehicle

Understanding Potential Hurdles To Using Better Site Design
For Water Quality Protection
A First Step Towards Resolving Conflicts, Real or Imaginary
October 8, 2003

2. **Which Topics were the least beneficial?**
 - VTA comments – because cities have little flexibility on arterial highway designs standards
 - Trash (3)
 - Permeable Pavements

3. **Would you be interested in attending additional meetings on understanding potential hurdles?**

Yes: 12 No: 1

4. **Would you be interested in attending a workshop on overcoming the hurdles?**

Yes: 11 No: 1

5. **Suggestion for future topics?**
 - None Given

6. **General Comments?**
 - Email attendees and local agencies on goals vs. cost & pro and con issues.
