Project Name

Project Description (brief paragraph)

Project Type (pick one that best describes project objective):

Mitigation

Permit Compliance

Research

Resource Management

Watershed Management

Watershed Monitoring and Assessment

Other – please specify

Project Start Date

Project Completion Date

Study Area Watershed(s) (list)

Number of Sampling Sites per watershed (e.g., number of sites/watershed for each watershed listed above)

Method used to Select Sampling Sites (pick one that best describes method)

Point-source design

Non-point source design

Stratified Random Selection

Non-Random Selection based on Physical/Habitat characteristics

Non-Random Selection based on Available Access  
Ambient Water Quality Design  
Other – please specify

Latitude/Longitude Coordinates of Sampling Sites

Sampling Dates

Sampling Protocol

California Stream Bioassessment Procedure – Citizen  
California Stream Bioassessment Procedure – Professional  
California Streamside Biosurvey  
USGS – NAWQA  
USEPA – RBP  
USEPA – EMAP

Quality Assurance/Control Procedures (Y/N)

Field  
Laboratory  
Handling and Custody  
Data Analysis and Storage

Data Format

Excel spreadsheet  
Microsoft Access  
Dbase  
ASCII Text
