Dear Mr. Wolfe,

I am pleased to submit a draft Work Plan for implementation of the Santa Clara Valley Urban Runoff Pollution Prevention Program's (SCVURPPP's) Urban Runoff Management Plan (URMP) for fiscal year (FY) 2005-2006. This Work Plan, which consists of Program and Co-permittee Activities, fulfills Provision C.6.b. of the Program's NPDES permit (Order 01-024) reissued February 21, 2001.

The Work Plan also fulfills the following additional permit requirements of the Order:

- Describes the development of new or modification of existing Performance Standards (Provisions C.2.b. and C.5.);
- Includes a Program PI/P Work Plan and Co-permittee work plans that describe the planned efforts to implement Program and other local PI/P activities (Provision C.4.)
- Contains the Program's FY 05-06 Annual Monitoring Plan (Provision C.7.c.), which addresses data collection and control programs for specific pollutants (Provision C.9.);
- Includes the Program's FY 05-06 Copper/Nickel Work Plan (Provisions C.9.a and b), which provides descriptions of the proposed Work Plan actions and the status of certain actions accomplished in FY 04-05;
- Includes the Program's FY 05-06 Mercury Outreach Activities (Provision C.9.c.), as described in the Program's Mercury Pollution Prevention Plan;
- Contains the Program's Pesticide Management Work Plan tasks for FY 05-06 (Provision C.9.d);

- Defines the Program's role relative to watershed management efforts and involvement in the Santa Clara Basin Watershed Management Initiative (SCBWMI), as described in the Annual Monitoring Plan (Provision C.10.).

The Work Plan includes clearly defined tasks, responsibilities, and schedules to be implemented by the Co-permittees, in each individual jurisdiction and collectively through the Program. The Work Plan builds on the baseline routine efforts conducted by the Program and Co-permittees through its "continuous improvement" process. The Work Plan also considers the implementation status of FY 04-05 activities and actions, in order to plan FY 05-06 activities.

The Management Committee is concerned about the availability of resources to conduct all FY 05-06 tasks because of the uncertain State budget condition and repercussions on the local agency budgets. As the resource issue becomes clearer, the Management Committee may have to revisit the priorities and resources assigned to the collaborative tasks.

We look forward to working with you and your staff to implement the actions contained in the attached plans.

Very truly yours,

Adam W. Olivieri, Dr. P.H., P.E.
